

# BEHAVIOUR-BASED SAFETY

*Making BBS Observation Monitoring Easy*

## CUSTOMIZATION

BBS software offers customizable configuration allowing the users to tailor safety protocols and monitoring to specific needs and behaviors.

## MULTI-LANGUAGE

BBS software features multilingual support, allowing users to interact with the system in pre-configure languages which makes it more versatile and inclusive.

## SEARCH & FILTER

BBS software features an easy search and filter option, enabling users to swiftly locate and sort information.

## INTEGRATION

BBS software allows for seamless data sharing via WhatsApp or email, enabling users to quickly and efficiently distribute information.

## PAPERLESS

The digital seamless process helps to eliminate the requirement of printing on paper. Go for an eco-friendly approach, enhancing both efficiency & sustainability.

## EXPORT DATA

BBS software also offers robust data export capabilities, allowing users to easily transfer information into various formats such as Excel, PDF & Print.

## INTERACTIVE DASHBOARD

BBS software includes an interactive dashboard that provides a dynamic and visual graphical overview of important BBS data.

## MOBILE APP

Mobile app offers easy mobile access, allowing users to easily interact with and manage their data from smartphones and tablets.

**Behavior-Based Safety (BBS) Software** offers a tailored approach to workplace safety with a customizable BBS category. It supports multiple languages and enables effortless data sharing via WhatsApp or email. The interactive dashboard provides real-time insights, while easy mobile access ensures efficient safety management from any device. This comprehensive solution streamlines safety practices, enhances communication, and adapts to diverse operational needs.
